

# Igniting the Faith

Faith formation is an ongoing process that we engage in and return to again and again throughout our lifetime as we receive and are nurtured in the gift of faith. As Catholic teachers we share a faith in the Good News of God's love, we live and develop this faith in a community.

**Igniting the Faith** is a living resource, designed to help OECTA members and leaders ask questions about Adult Faith Formation in their ministry within their education settings, and local units. Use the QR code to see the menu of options available in the infographic and the e-book.
